

# Ergonomic Safety Ladder System for MRO Fleet Service for the Boeing 737NG & Boeing 737MAX Aircraft

LockNclimb ergonomic safety ladders are specifically designed for each aircraft in the fleet to provide stable working conditions for MRO technicians performing routine maintenance and repair service on the flight line, in the hanger and engine shop.

## 4MINIDUAL Fiberglass Cabin Ladder (A)

4' tall dual-sided fiberglass ladder, 15 inches wide, OSHA rated 300-lb. Special Duty. Meets or exceeds ANSI 14.5 specifications. Designed for use in the interior cabins of commercial aircraft. Composed of fiberglass construction frame. Lightweight (18 lbs.) and narrow width allows cabin service personnel to place in the aisle to service overhead bins, lighting and electronics. Allows sturdy safe working access and prevents damage to seatbacks and armrests. Easily storable inside the aircraft for continual use. "Do Not Stand" stickers placed above safe stand area. Stickers indicate OSHA/ANSI 14.5 compliance. **Designed to service interior overhead cabin bins, galley bins and electronics.**

## 5MINIPYLON Aluminum Pylon Ladder (B)

5' aluminum ladder, OSHA rated 300-lb. Special Duty. Meets or exceeds ANSI 14.2 specifications. Composed of aluminum construction frame 31" wide with 6061-grade aluminum base Pylon LockNclimb frame. Commercial grade wheels mounted on sides of pylon. Folding connectors for easy transport and storage. Rubber padding on back rails and treads protects aircraft surfaces from damage. Rubber bumpers on side protect ladders from accidental dropping on concrete or pavement surface. Equipped with LockNStands to provide durable comfortable for extended standing. Equipped with removable brass feet to allow easier sliding on oncrete and/or apron surfaces "Do Not Stand" stickers placed above safe stand area. Stickers indicate OSHA/ANSI 14.2 compliance. **Designed to reach thrust reverser, fan cowl, wheel well, landing and nose gear area.**

## BOEING 737: 4MINIDUAL, 5MINIPYLON, 6LNCPYLON, 10COWLPYLONMAX

### 6LNCPYLON Aluminum Pylon Ladder (C)

6' aluminum ladder, OSHA rated 300-lb. Special Duty. Meets or exceeds ANSI 14.2 specifications. Composed of aluminum construction frame 31" wide with 6061-grade aluminum base Pylon LockNClimb frame. Commercial grade wheels mounted on sides of pylon. Folding connectors for easy transport and storage. Rubber padding on back rails and treads protects aircraft surfaces from damage. Rubber bumpers on side protect ladders from accidental dropping on concrete or pavement surface. Equipped with LockNStands to provide durable comfortable for extended standing. Equipped with removable brass feet to allow easier sliding on concrete and/or apron surfaces. "Do Not Stand" stickers placed above safe stand area. Stickers indicate OSHA/ANSI 14.2 compliance. **Designed for service to the lower fan cowl area and wheel well area.**

### 10COWLPYLONMAX Aluminum Ladder (D)

10' Aluminum ladder, OSHA rated 300-lb. Special Duty, 111"L X 32"W. Exceeds ANSI 14.2 specifications. Composed of aluminum construction frame 31" wide with 6061-grade aluminum base. Commercial grade wheels mounted on sides of base. Brass feet rear, rubber feet front. Rubber padding on back rails and treads protects aircraft surfaces from damage. Rubber bumpers on side protect ladders from accidental dropping on concrete or pavement surface. Equipped with LockNStands to provide durable comfortable for extended standing, and safety handrails. Do Not Stand stickers placed above safe stand area. Stickers indicate OSHA/ANSI 14.2 compliance. **Designed for service inside and outside the fan cowling and top pylon area.**

### LOCKNCART Storage & Transport Cart

The GSE approved LockNCart contains the complete ergonomic safety ladder package. This enables direct towing to the service area inside the hanger or on the flight line. Each ladder has a designated storage rack for easy storage and deployment, reducing the storage footprint to a minimum.

Made in the U.S.A.
